Windows 10 Modern Workplace Workshop

Insight

Why Insight for Windows 10?

At Insight, we define, architect, implement and manage Insight Intelligent Technology Solutions™ that help your organization run smarter. Our strong supply chain optimization and workplace solutions combined with our data center transformation expertise and modernized applications keep business running, foster flexible work environments and put you at the forefront of innovation.

- 30 years of industry experience
- Operations in 22 countries, serving clients across the globe
- Application assessments for Windows® 10 readiness
- Accelerated Windows® 10 migration services
- SCCM road map for managing updates in the cloud

Insight helps you manage business today and transform the future.

How Windows 10 will help your organization

At Insight, we understand your business challenges: balancing management of a rigid and fragile legacy infrastructure with the need to leverage cloud capabilities — all with limited resources. We'll help you achieve the outcomes you're working toward so you can protect your business from modern security threats, meet shifting business demands and streamline IT operations. With our Windows 10 Modern Workplace Workshop program, you'll be able to:

- Learn how the cloud factors into your solutions.
- Explore the latest security enhancements.
- Receive actionable recommendations for deployment.
- Get an optimized road map for the next 2–3 years.
- Transition seamlessly after evaluation of infrastructure dependencies.

Our 5-Day Windows 10 Modern Workplace Workshop includes:

DAY 1

Windows 10 Overview and Review
▪ Review the IT impact with Microsoft 365 powered devices including the latest Windows 10 features, imaging, functionality, deployment, provisioning, and management options
