

Why Insight for global finance leasing?

Insight Public Sector (IPS) brings you the convenience and flexibility of leasing IT with a U.S. Communities™-approved Master Equipment Lease Agreement. This fair market value lease allows governments, schools and universities to acquire technology with little to no down payment and then make low payments over time, without incurring debt. Bundle your hardware, software and services purchases into one monthly, quarterly or annual payment.

- Innovative and flexible financing solutions
- One-stop convenience
- Seamless order/leasing process
- Asset analysis and management strategies
- Manufacturer-agnostic

Insight is your expert source for multiyear software discounts and flexible payment options.

How global finance leasing will help your business

Insight's Global Finance (IGF) team will work with you to create a leasing and finance strategy that works with your goals and needs.

Upgrade on demand.	Add or upgrade technology when the need arises, without the time constraints of capital acquisitions.
Stretch your budget.	Procure goods and services using a smaller percentage of your budget. Pay for equipment as you use it.
Avoid technological obsolescence.	No need to worry about owning technology that becomes obsolete. Leasing makes it simple to access the latest IT.
Get the whole solution.	Make a single payment for hardware, software, peripherals, services and installation costs.
